## Press release

10/03/2020

### **The Stunning BW Terraces, Designed By RMJM Serbia, Begins Construction**

[The BW Terraces](#), part of an urban renewal development was designed by [RMJM Serbia](#) in 2018.

At the beginning of March, the eponymous developers of Belgrade Waterfront announced that they had launched the construction of the BW Terraces, which offers 132 additional apartments overlooking river Sava, ranging from one to three bedrooms.

Flowing design, beautiful views and open spaces were prominent in RMJM Serbia's design. The design intent was to create an interconnected environment that embraced the surrounding nature and BW neighbourhood. The glass façade that envelops the building allows the interior to spill out onto the amazing terraces, connecting it with river and buildings amazing surroundings and blurring the line between the indoor and outdoor spaces. The terraced apartments brought living spaces outdoors and natural environments indoors. The integration of glass throughout the facade will reflect the project's surroundings so the building appears to melt into the surrounding river, park and sky.

"We have had the privilege of working with Belgrade Waterfront previously and are thrilled to be part of this collaborative process to renew part of the city we call home." Petar Stjelja - RMJM Serbia Design Manager

## Notes to the Editors

### **About RMJM**

Founded by Sir Robert Matthew and Stirrat Johnson-Marshall in 1956, [RMJM](#) Group is one of the largest, most geographically and culturally diverse architecture firms in the world. With studios across five continents, the RMJM family can share knowledge, expertise and design talent, enabling them to think quicker and act faster. Working stronger together, they are global enough to make a difference while still being local enough to be personal. Through their shared vision of success, RMJM has spent more than 60 years creating a legacy of world-class design.
